Estimate classification

The product's internal capability levels 1-5 are NOT AACE estimate classes and are not official classifications of any owner. Estimate class, if any, comes from a company-approved classification scheme only.

Assumptions, exclusions and limitations

- Quantities are human-measured BOQ quantities; the application does not measure drawings.
- Figures are taken from frozen estimate version v1 (fingerprint 400c9f6df7ae5579).
- SYNTHETIC / DEMONSTRATION data: rates, quotations, productivity norms, customer and responses are fictional test inputs, not market evidence.
