Assumptions, exclusions and limitations

- Quantities are human-measured BOQ quantities; the application does not measure drawings.
- Figures are taken from frozen estimate version v2 (fingerprint 48d0f9242dc910b7).
- SYNTHETIC / DEMONSTRATION data: rates, quotations, productivity norms, customer and responses are fictional test inputs, not market evidence.
- This record states what the application gate verified; it is not itself an approval.
