note	A percentage indirect applies to the eligible part of the direct cost. 'specified' False = legacy whole-direct-cost base. Preliminaries (cost-code division A) inside the base may duplicate costs the percentage is meant to cover; exclude them with an eligibility rule or accept the finding with a reason.

Assumptions, exclusions and limitations

- Quantities are human-measured BOQ quantities; the application does not measure drawings.
- Figures are taken from frozen estimate version v2 (fingerprint 48d0f9242dc910b7).
- SYNTHETIC / DEMONSTRATION data: rates, quotations, productivity norms, customer and responses are fictional test inputs, not market evidence.
